Allyson Ettinger

Assistant Professor

Departments of Linguistics and Computer Science, The University of Chicago

Contact

Address: Department of Linguistics

University of Chicago 1115 E. 58th Street Chicago, IL 60637

Email: aettinger@uchicago.edu
Website: https://aetting.github.io/

Appointments

2022-present	Assistant Professor, Dept. of Computer Science, The University of Chicago
2019-present	Assistant Professor, Dept. of Linguistics, The University of Chicago

2019-present Courtesy Faculty, Toyota Technological Institute at Chicago

2018–2019 Research Assistant Professor, Toyota Technological Institute at Chicago

Education

University of Maryland, College Park

PhD - Linguistics, 2013–2018

With Certificate in Neuroscience and Cognitive Science

Dissertation: Relating lexical and syntactic processes in language: Bridging research in

humans and machines.

Brandeis University

BA, Linguistics/Psychology, Summa Cum Laude, May 2010

Relevant work experience

2011–2013 Lab manager/research assistant, KIT/NYU MEG Research Lab (conducting re-

search in cognitive neuroscience of language)

Grants

- 2019–2021 NSF EAGER grant: World Modeling for Natural Language Understanding. (with Kevin Gimpel, Toyota Technological Institute at Chicago)
- 2014–2017 NSF Graduate Research Fellowship

Presentations

- 2023 Invited talk, Transdisciplinary Institute in Applied Data Science (TRIADS) seminar series, Washington University in St. Louis, St. Louis, MO.
- 2022 Invited keynote talk, SIGNLL Conference on Computational Natural Language Learning (CoNLL), Abu Dhabi, UAE (upcoming).
- 2022 Invited talk, ILFC monthly online seminar organized by GdR LIFT, French National Centre for Scientific Research.
- 2022 Invited talk, University of Texas Austin workshop series in formal and computational semantics, Austin, TX.
- 2022 Invited talk, McGill Linguistics Department colloquium, Montreal, Quebec (virtual).
- 2022 Invited talk, University of California, Irvine Summer School on Computational Cognitive Modeling for Language, Irvine, CA.
- 2022 Invited keynote talk, 11th Joint Conference on Lexical and Computational Semantics (*SEM), NAACL 2022, Seattle, WA.
- 2022 Invited speaker and panelist, "The Challenge of Compositionality for AI" workshop, (virtual).
- 2022 Invited talk, Microsoft Cognitive Services Research Group Distinguished Talk Series, Seattle, WA (virtual).
- 2022 Invited keynote talk, Third Workshop on Knowledge Extraction and Integration for Deep Learning Architectures (DeeLIO), ACL 2022, Dublin, Ireland.
- 2022 "Understanding" and prediction: Controlled examinations of meaning sensitivity in pre-trained models. Invited talk, University of Maryland CLIP Lab Colloquium, College Park, MD.
- 2022 "Understanding" and prediction: Controlled examinations of meaning sensitivity in pre-trained models. Invited talk, Notre Dame NLP Seminar, Notre Dame, IN (virtual).
- 2022 "Understanding" and prediction: Controlled examinations of meaning sensitivity in pre-trained models. Invited talk, University of Pennsylvania CLunch, Philadelphia, PA.

- 2022 Foundations of ambiguity resolution: Assessing meaning extraction in deep learning models. Invited talk, l'AMORE Mini-workshop on Linguistic Ambiguity and Deep Learning, Barcelona, Spain.
- 2022 Diagnosing meaning extraction in pre-trained language models. Invited talk, Carnegie Mellon University brAIn Seminar, Pittsburgh, PA (virtual).
- 2022 "Understanding" and prediction: Controlled examinations of meaning sensitivity in pre-trained models. Invited talk, Stanford NLP Seminar, Stanford, CA (virtual).
- 2021 "Understanding" and prediction: Controlled examinations of meaning extraction in natural language processing models. Invited talk, Ohio State University Linguistics Department Colloquium, Columbus, OH (virtual).
- "Understanding" and prediction: Controlled examinations of meaning sensitivity in pre-trained models. Invited talk, van Schijndel research group, Cornell University, Ithaca, NY (virtual).
- 2021 "Understanding" and prediction: Controlled examinations of meaning sensitivity in pre-trained NLP models. Invited talk, University of Chicago MACSS Computational Social Science Workshop, Chicago, IL (virtual).
- 2021 Invited panelist, How can findings about the brain improve AI systems?, panel at Brain2AI workshop, International Conference on Learning Representations (virtual).
- 2021 "Understanding" and prediction: Controlled examinations of meaning sensitivity in pre-trained models. Invited talk, New York University NLP/Text-as-Data speaker series, New York, NY (virtual).
- 2021 Pre-trained language models evaluated relative to human cognition. Invited talk, Dongguk University English Literature and Language Dept. Colloquium, Seoul, South Korea (virtual).
- 2021 A noisy channel model of N400 and P600 effects in sentence processing. (with Jiaxuan Li) 34th Annual CUNY Conference on Human Sentence Processing.
- 2020 Word and phrase representations in machines and in humans: comprehension, context, and composition. Invited talk, Massachusetts Institute of Technology CompLang discussion group, Cambridge, MA (virtual).
- 2020 Holding AI to a human standard: Applying cognitive science to evaluation of NLP models. Invited talk, Massachusetts Institute of Technology Computational Psycholinguistics Lab, Cambridge, MA (virtual).
- 2020 "Understanding" and prediction in language: perspectives from AI and human cognition. Invited talk, Georgia Institute of Technology Workshop on Language, Technology, and Society, Atlanta, GA (virtual).
- 2020 "Understanding" and prediction in language: perspectives from AI and human cognition. Invited talk, Northwestern University Department of Linguistics Colloquium, Evanston, IL.
- 2020 (postponed due to COVID-19) "Understanding" and prediction in language: perspectives from AI and human cognition. Invited talk, University of Wisconsin-Milwaukee Department of Linguistics Colloquium Series, Milwaukee, WI.
- 2019 NLP representations from a perspective of human cognition. Invited talk, Johns Hopkins University Center for Language and Speech Processing Lecture Series, Baltimore, MD.
- 2019 Invited panelist, A linguist, an NLP engineer, and a psycholinguist walk into a bar?, interdisciplinary panel at RepEval Workshop, Minneapolis, MN.
- 2019 Challenges in NLP evaluation (and how linguists can help). Invited panel talk, Society for Computation in Linguistics Annual Meeting, New York, NY.
- 2019 Vector space models. Invited tutorial, Society for Computation in Linguistics Annual Meeting, New York, NY.
- 2018 Bridging language research in humans and machines: toward a productive symbiosis. Invited talk, CUNY Graduate Center, New York, NY.

- 2018 Opening the black box: leveraging insights from linguistics and cognitive neuroscience to assess the linguistic capacities of NLP systems. Invited presentation, University of Chicago Department of Linguistics, Chicago, IL.
- 2018 Bridging language research in humans and machines: toward a productive symbiosis. Invited talk, University of Chicago Department of Linguistics, Chicago, IL.
- 2018 Bridging NLP and brain science to improve natural language understanding. Invited talk, Toyota Technological Institute, Chicago, IL.
- 2017 Building and evaluating meaning representations for NLP. Invited talk, Tohoku University, Sendai, Japan.
- 2017 Drawing cognitive insights from NLP: Assessing the usefulness of engineering models in modeling human language processing. Invited talk, Tohoku University, Sendai, Japan.
- 2013 Mandarin utterance-final particle ba in the conversational scoreboard. [with Sophia Malamud]. Presented at 19th International Congress of Linguists, Geneva, Switzerland, and Linguistic Society of America Annual Meeting, Boston, MA.
- 2012 Mandarin utterance-final particle ba and conversational goals. [with Sophia Malamud]. Presented at NYU Semantics Discussion Group Meeting, New York, NY.
- 2010 Linguistic construction of gender and generations in Hmong-American communities. [with Mai Youa Moua, James Stanford]. Presented at Linguistic Society of America Annual Meeting, Baltimore, MD.

Thesis Advising

- PhD in Computer Science (in progress): Chih-chan Tien, Lalchand Pandia, Chenghao Yang, Deuksin Kwon.
- PhD in Linguistics (in progress): Sanghee Kim, Daniel Lam.
- PhD in Natural Language Understanding (in progress): Kanishka Misra, Purdue University.
- Karim Lasri, Ecole normale superieure, PhD in Language Science. Thesis title: Linguistic Generalization in Transformer-Based Neural Language Models
- Laura Aina, Universitat Pompeu Fabra, PhD in Translation and Language Sciences. Thesis title: A Deep Learning Perspective on Linguistic Ambiguity.
- Lang Yu, PhD in Computer Science. Thesis title: Analyzing and Improving Compositionality in Neural Language Models.
- Daniel Edmiston, PhD in Linguistics. Thesis title: *Identifying Linguistic Structures in Continuous Spaces*.
- Jiaxuan Li, Master's Program in Computational Social Science. Thesis title: A Noisy Channel Model of N400 and P600 Effects in Sentence Comprehension.
- Wanitchaya (Mint) Poonpatanapricha, Master's Program in Computational Social Science. Thesis title: Use of emojis as markers of politeness.
- Ethan Liu, Master's Program in Statistics. Thesis title: Causal Relations and Feature Extraction in Contextualized Sentence Representation.

- Zhou Xing, Master's Program in Computational Social Science. Thesis title: Visually Ground-edMultilingual Syntax Acquisition.
- Alexander (Sasha) Tyan, Master's Program in Computational Social Science. Thesis title: Using Topic Modelling to Detect Bias Between News Sources.
- Michael Hanna, Bachelor's in Linguistics and Computer Science. Thesis title: Evaluating the Interpretability of Variational Autoencoders' Latent Space Representations of Sentences
- Hanson Lu, Bachelor's in Linguistics and Computer Science. Thesis title: Applying the Rational Speech Acts Model to Coreference Resolution

Service

- Chair, Society for Computation in Linguistics, 2021-present
- Program committee chair, Society for Computation in Linguistics, 2020-2021
- Action editor, ACL Rolling Review, 2021-2022
- Senior area chair, North American Association for Computational Linguistics Annual Meeting, 2022
- Area chair, Association for Computational Linguistics Annual Meeting, 2020–2023; North American Association for Computational Linguistics Annual Meeting, 2021; SIGNLL Conference on Computational Natural Language Learning, 2021
- Organizer, "The Big Picture: Crafting a Research Narrative", Workshop at EMNLP 2023
- Organizer, Workshop on Building Linguistically Generalizable NLP Systems, EMNLP 2017
- Organizer, Student Research Workshop, ACL 2017
- Chair, Research Training Committee, UMD Language Science Center (2016–2017)
- Chair, Annual Winter Storm graduate training workshop, UMD Language Science Center (2014–2016)

Reviewing

- ACL, EMNLP, ICLR, ICML, NAACL, NeurIPS, EACL, COLING
- Workshop on Analyzing and Interpreting Neural Networks for NLP (BlackBoxNLP)
- Society for Computation in Linguistics (SCiL)
- Workshop on Evaluating Vector Space Representations for NLP (RepEval)
- Cognition (journal)
- Cognitive Science (journal)
- Transactions of the Association for Computational Linguistics (journal)

- Computational Linguistics (journal)
- Psychological Review (journal)
- Journal of Natural Language Engineering (journal)
- Swiss National Science Foundation (grant review)

Natural Languages

• English: native

• Mandarin Chinese: fluent

• Spanish: proficient

• Korean, French, German, Modern Standard Arabic: reading/communicative knowledge

Honors and Awards

- Best Proposal Award, Workshop on Evaluating Vector Space Representations for NLP, Association for Computational Linguistics (ACL) Annual Meeting 2016
- National Science Foundation Graduate Research Fellowship recipient, 2014
- Member Phi Beta Kappa Academic Honor Society, Brandeis University Chapter
- Justice Louis D. Brandeis full-tuition scholarship, Brandeis University, 2006-2010
- National Presidential Scholar, U.S. Presidential Scholars Program, 2006

Teaching

- Computational Linguistics, undergrad / grad (2020-present)
 - Interdisciplinary introductory course in computational cognitive modeling and natural language processing (cross-listed in linguistics and computer science). Single-quarter course taught separately for undergraduate and graduate students.
- Computational Linguistics I (2019-2020)
 - Interdisciplinary, mixed undergraduate/graduate level course in computational cognitive modeling and natural language processing (cross-listed in linguistics and computer science)
- Computational Linguistics II (2019-2020)
 - Advanced continuation of Computational Linguistics I
- Seminar in Computational Linguistics

 Graduate seminar course focusing examining approaches to meaning in computational linguistics—particularly efforts to capture meaning and "understanding" in artificial intelligence

• Language and the Human (2019-present)

- Humanities course in the University of Chicago Undergraduate Core Curriculum, structured around discussion and writing on topics involving Language and Identity
